155 hectares

A planned new community of over 40,000 people

Victoria Riverside marks the first phase of Victoria North (previously Manchester's Northern Gateway), the biggest renewal project Manchester's ever seen. Jointly developed and funded by FEC and Manchester City Council, Victoria North is set to create 15,000 new homes across 155 hectares and seven neighbourhoods over the next 15 years, helping with the shortfall in housing in Manchester. The redevelopment project will create better-connected public spaces, new and improved transport links, and more homes, parks and retail spaces for the city's growing population.

At the heart of the regeneration is the new City River Park which covers 46 ha of new and improved parkland. Victoria Riverside is at the forefront of the new, distinct residential neighbourhood at Red Bank and New Town, benefitting from its location within Manchester City Centre, but offering something new to its community.

A Destination in the Making

Victoria Riverside marks the start of the creation of the City River Park. At approximately 46 ha, it will become one of Manchester's largest city centre green spaces. The park will vary in character providing a diverse and active new recreational corridor for the community including parks and smaller amenity spaces.

City River Park will enhance existing habitats and create new habitats for wildlife and be guided by climate positive design to create results which are as carbon neutral as possible. Connectivity and accessibility are also key ensuring high quality pedestrian and cycle movement within luscious green spaces for active lifestyles and well-being.

Red Bank and New Town will provide the first phase of the City River Park. Over 35,000 sqm of new and improved parkland including St Catherine's Wood and the River Irk will be delivered in this first phase with HIF investment made by 2024 in line with anticipated completion of the Victoria Riverside scheme.

Why Invest in Victoria Riverside?

The growing demand for new homes is testament to Manchester's resurgence as a global destination. The city has one of Europe's largest student populations, with over 100,000 students, and a graduate retention rate of over 60%. The increasing number of young professionals choosing to call Manchester home is attracting more and more national and international companies, with ITV and BBC at MediaCity in Salford, and the likes of Google, KPMG, Amazon, Hewlett Packard Enterprise, BP and AstraZeneca all setting up offices in the city.

As the job market grows, so does the residential market. Property prices are expected to increase by 24.3% by 2026, while rental growth is forecast to hit 16.5% by 2025.

This marks Manchester as one of the UK's most exciting investment opportunities, with Victoria North playing a key role in the city's residential and commercial resurgence.

Along with Crown Gardens, you will also have access to City Gardens which are open to all Victoria Riverside's residents. With a vibrant atmosphere, you can enjoy working outdoors or simply having a drink with friends after work.

Inspired by the local area's industrial heritage, City Gardens unique design was inspired by the grid grip on the Phillips Rubbers soles, a shoemaking factory that once occupied the site. The grid design runs through the materiality on the podium, with the use of clean lines and inset metal edging within the paving. Private front garden areas are surrounded by plinth seating and metal dividing screens will further play on the pattern. Planting on this podium will focus on multi stem trees, ferns and grasses providing year round interest and privacy.
